

# Getting Started

**1 Beam may require charging**  
Use the included cable to charge your beam.  
**If charging is needed, please allow 6-8 hours to fully charge (Beam may be used while charging).**

**2 Download app, create account & log in**  
Visit [gochip.com/apps](http://gochip.com/apps) on your smart phone, tablet or PC to download the app, then create an account and log in.

**3 Power on Beam**  
Press and hold the power button for 3 seconds until the right light turns solid green. You can connect when the middle white light flashes 8 times. Wi-Fi light will take 40-50 seconds to begin flashing.

**4 Connect your device**  
On your mobile device, open **Settings > Wi-Fi** to connect to the GoChip Beam.

**Please note:** See label on your Beam for network name and password, then wait for an indication that your device is connected.

**Please note:** When you connect to your Beam, your device may let you know that you are no longer connected to the Internet. **This is expected behavior** because you are now connected to the Beam and not to the Internet—giving you access to all your movies & TV shows without Internet access or downloading.

**5 Just Play!**  
Start the GoChip Player App and enjoy your movies and TV shows. You can connect up to 8 devices at the same time: each person playing what they want, when they want.

**6 Power off Beam**  
Press and hold the power button for 3 seconds until the right light turns off.

**7 Need help or want to learn more?**

Wi-Fi

✓ GoChip Beam L0039     
**No Internet Connection**

**Note:** this message is normal since you are now connected to the Beam, not the Internet.

## Battery level colors

-  >90% charge
-  10-90% charge
-  <10% charge

**1 Charging light**  
Colored light when charging shows battery level

**2 Wi-Fi light**  
Flashes 8 times, then on, then off when ready to connect your device
